Searching for the one I need a...  
Somebody that ain' afraid to win, win  
Baby is it you? Cause to me you're the truth  
I can see you over there, doing your dance  
I'm like, good god all mighty? Look at lil Shawty  
Gotta be the baddest thang dancing in this party  
Gotta say wassup? Gotta talk to her  
And I already know what I'ma say  
See girl you're looking just like a dream girl, dream girl  
Dream girl, I'm trying to pull you in my real world  
For real girl  
I see you every single night  
You're all that's really on my mind  
I make a wish and close my eyes  
Girl I want you

I see the way you get it in, in

Slow motion hair blowing in the wind, wind  
Baby girl I'm feeling you, what you wanna do  
You got me so gone it's hard to keep my cool  
I'm like good god all mighty, feeling lil Shawty  
I swear she the baddest thing moving at this party  
Had to say wassup, get her number  
When I call her guess what I'ma say yeah

See girl you're looking just like a dream girl, dream girl  
Dream girl, I'm trying to pull you in my real world  
For real girl  
I see you every single night  
You're all that's really on my mind  
I make a wish and close my eyes  
Girl I want you X2
