We will never die
We control the night
We will never...
Die
We control the night
We will never die

If it wasn't to my vent
Sweat and pain
Life is death
Cry mostly to the end of nights
I can't control myself
First you love now you hate
I have seen too many years
Facing to the end of slant
I'm never killing to...
Rehearse
Before the pain of love
Rehearse
Before the pain of life
(Set me free from the pain of life)

We will never die
We control the night
We will never...
Die
We control the night
We will never die

Why should my life long for this?
Are you stronger on this earth?
My life is a bloody mist
You are no one
Life is worth

I saw my last sun rise
To the end of night, raise
