They will destroy your world  
Do you understand for all is gone  
Burn this world  
Burn this world  
Burn everything  
Let me get the point  
The message at heart(?)  
There's more than fortune  
There's more than age(?)

This world was not ours to take  
This world was not ours to break  
This world was not ours to take  
This world was not ours to break

King of the world  
To fuel the machines  
To reach the standards  
Of kind deadweight(?)  
Let me get the point  
The message at heart(?)  
There's more than fortune  
There's more than age(?)

Burn this world  
Burn this world
