And I've never fallen, so fast
In this case, it's apparent that polar opposites attract
And I've been so lost, so wrong
But then you came along, then you came along
Soon you'll see, my baby
I run to you, not walk, I run to you
I run to you
I run to you
I run to you
I run to you

For years, I've hid my feelings and my fears
In pill bottles, chemicals, and chronic slow
I wanna see, my true colors
I wanna see your true colors
Let's blend them together, and see what shade we
make
We make...
Let's see what shade we make, what shade we make
Let's see what shade we make, what shade we make

What shade we make
What shade we make
What shade we make
Let's see what shade we make, what shade we make
What shade we make

What shade we make
What shade we make
What shade we make
