We could be here for a while  
So let's get busy and defile  
Our friends  
Why can't I stop killing my friends?

Please come home to me my Kyle  
I did not mean to rouse and rile  
Your head  
Why can't I stop killing my friends?

O you've been a bad one  
You go from this to that one  
You moan and throw a tantrum  
You know better than to kill a friend

Lalala...

We were done for from the get go  
So let's not be fools and just let go  
Of errors  
When you're dead nobody will care

O you've been a bad one  
You go from this to that one  
You moan and throw a tantrum  
You know better than to kill a friend
