

## Skrape

### "A Day In The Sun"

Visit "[A Day In The Sun](#)" on MotoLyrics.com

We all get our day in the sun  
Take your first breath and it's gone  
A quick blink eternity  
Yet still enslave to the dirt beneath our feet

Until i'm gone  
Make it worth your while

Could I have an Angel's heart?  
Free from this blood, fire, water, dirt  
And adore you without distraction  
And serve you twenty-four seven

Until i'm gone  
Make it worth your while  
Until i'm gone  
Make it worth your while

Bridge:  
If heaven is all they say  
Please take me there today  
If this is where i'm to stay  
I'll serve you always

Here comes the night as it gently falls  
I'm catching your vision just as you call  
This intrument you temple  
This simple earthly vessel
