

Skrape "Sleep"

Visit "[Sleep](#)" on MotoLyrics.com

Come to
I need to feel
You bore me too
When you sleep too long

Strange house
Same day

When will you fall upon your face?
When will you fall upon your face?

Wake up
I dream for me
You must be high
'Cause you dare me

Strange house
Next day

When will you fall upon your face?
When will you fall upon your face?

When will you fall upon your face?
When will you fall upon your face?

When will you fall upon your face?
When will you fall upon your face?
