These toys in my hands
Those words I held dear
They brought me nothing but fear
The choices at hand
To do what I can
And still I walked away from the truth

Chorus:
Forgive my filthy heart
And break my world apart
And I know You would 'cause I gave You all I could
My filthy heart break
Your heart apart
And I know it would 'cause You me all You could

So here I am naked with shame
To fear Your anger and Worship Your name
And I'm the only one to blame
But I put that aside and I came at your feet
I bow there's now better time but now

(Chorus)

Bridge:
My flesh is weak, my bones are weary
My will is frail, Give me strength

There's sin in my heart
And blood on my hands
For the love of God who understands
This life is lie and you wonder why
To my skin I must die
