I'll wait,
Wait for the words you say you never

Could tell me, no
You never would you never would

Forward,
Dull like the safe of night
The safe when you were born
You will come on you will come on

Down here,
Likewise a likewise,
You never could tell me no,
You never could you never could

Always,
A blackbird to paint the calm
You never could taste the fa-all
You never would you never would

(Melody part)

Thrown out,
Well well you like a man [who] can

Tell you shut the door
You were tonight you were tonight you

Were

I know,
Somewhere between the lines, between

The lines of fo-o-olds you meant to

Fall

(Chorus)
We are animals, don't you know
We savages and beasts but keep in toe

We are animals I heard you say-a
We belong we belong together

(Melody part)

Now I,
You're welcoming you're welcoming you

Never could tell me no,
You're welcoming this fa-a-all

You're word,
Things you never said, you never

Said, you never said,
I will knock you down

(Chorus)

We are animals, don't you know
We savages and beasts but keep in toe
We are animals I heard you say-a
We belong we belong together

(Change)

(Chorus)

We are animals, don't you know
We savages and beasts but keep in toe
We are animals I heard you say-a
We belong we belong together
