You came in  
Only grew up  
I'm weaker down x5  
I spit you out

I deliver, I deliver  
I'll help you out, I'll help you out  
I bring to different floors

Chorus:  
I'm a human elevator  
I'm a human elevator  
Human elevator  
I'm a human elevator

I talk you down x5  
I smug to you x3  
I let you breathe  
For better or worse

Chorus x2

2x:  
Down to the... when we all all get out  
Down to the... when we all get out get out  
Down to the... when we all all get out  
Down to the... when we all get out get out

Chorus
