Easyjet to heart of gold (alright alright)
Matahorn to Mandalay (je t'aime)
Opportunities abound (chalet chalet)
In-flight music, hey hey hey (je t'aime)

Forget about the war
Just come knocking on my door
I just got my pay
I'll whisk you away on a holiday
Let's go go

Forget about the crunch
Just come help me pack our lunch
I just got me a car
Our private Eurostar, down some boulevard
Let's go go

Forget about what's next
Don't even send a text
Let's get away from this mess
There's no need to stress, I've got GPS
Let's go go

Forget about the cash
Just rely on my panache
Just let go of your fears
Let's suspend our careers, continental beers
Let's go go
