

The Chap

"Curtains"

Visit "[Curtains](#)" on MotoLyrics.com

Word is out, hear hear
We are ex, put to sleep long ago

See this town, hear hear
We were killed by this place long ago

They run the show
Here here there there

Word is out, hear hear
We are dead, killed by men long ago

Leave this town, nowhere
No place else, nothing here anymore

Run with me through this dead city and
Please mean something to me and
Run with me out of the city and
Please say something to me
As we cross the edge of the world
