"Even Your Friend"

Even your friend stayed on till the end, not you
The heat of the night I thought we might, not you
I'm on my date(?), I best not be late, so you
The heat of the night I thought we might but oh no
You are a mess I work off your mess, but you
You crush and you burn, you ever return, not you
Hand and by gate I best not be late, so you
The heat of the night I thought we might but oh no

Oh, yeah, kids are you ready for the summer time now?
Beach can be a hurt, heat can be a hurt
Are you ready to , in the summer time now?
Beach can be a hurt, heat can be a hurt
,
Are you ready to , in the summer time now?

Even your friend could not comprehend, but you
The heat of the night, the stars so bright, but you
You crush and you burn, you never return, not you
The heat of the night I thought we might but oh no

Kids are you ready for the summer time now?
Are you ready to , with the summer time now?
With the house out of daddy with the summer time
now?
Are you ready to , with the summer time now?
Kids are you ready for the summer time now?
Beach can be a hurt, heat can be a hurt
Are you ready to , with the summer time now?
Beach can be a hurt, heat can be a hurt
With the house out of daddy with the summer time
now?
Are you ready to , with the summer time now?
Beach can be a hurt, heat can be a hurt
Beach can be a hurt, heat can be a hurt
