It's too late to recycle  
To reboot the passion  
It's far too heikel (risky risky risky risky)

Overload my buffer  
To release the supernode  
I'm far too sweaty (itchy itchy itchy itchy)

Get the funk outta here  
Oh my bandwidth flows

Supervise my protocol  
My domain, my horoscope  
My Eldorado (bitchy bitchy bitchy bitchy)

Flood attack my assets  
Simulate community  
I'm far too mindful

Get the funk outta here  
On and on it goes
