"Surgery"

Hello hello,
Blood blood blood,
We will perform surgery,
Your body has things that throb,
Hello hello surgery

Oh, where's my soul gone?
Oh, where is home?
Nineteen years in the business,
Nineteen years, dog without a bone

Just walk on by,
Der-der-der, der-der-der,
We will perform,
Der-der-der, der-der-der

Take It In The Face
Compete with me,
Get down with me,
Literally,
Down with me,
You contemplate suicide,
Whereas I wanna die immediately

You take it in the face,
Shoot gotta stay the course,
It's more than just a trick,
You take it in the face
