We met the blond guy  
He was with the bass guy  
We had a long chat  
They know my friend

We know them  
We work in bars  
They're really good  
We work in bars

They play a lot  
We work in bars  
Side projects too  
We work in bars

They're doing this project  
They got the funding  
Tokyo, London  
They know my friend

They know my friend  
They're taking off  
We work in bars  
We work in bars

And Daddy left  
And Mum is sick  
We work in bars  
We work in bars
