I never stop looking  
I'm gonna have more now  
Wish someone could tell me  
What I'm looking for now.  
Chorus:  
Will I ever find what I'm looking for?  
All I need is for someone to open that door  
I wish someone could tell me  
What I have to find now  
Can't find what I'm hunting  
Want to use my mind now  
(Repeat Chorus)  
Well I'm searching, trying hard to find out  
Searching, trying to ease my mind now  
If you see me looking puzzled  
Don't you wonder why now  
Always keep you searching  
All the day and night now  
(Repeat Chorus)  
Searching, trying hard to find now  
Searching, trying to ease my mind now
