So long summer  
Farewell to stars that light my sky  
Love and remember  
That just like comets passing by  
Everybody leaves sometime

Goodbye lover  
I'll miss the colours in your eyes  
There won't be another  
But just like bottles in the tide  
Everybody leaves sometime

Nothing lasts forever  
Every empire has a rise and a fall  
If we could live forever  
It wouldn't make no sense at all  
It wouldn't make no sense at all

I keep walking  
The waves keep crashing at my feet  
My head keeps talking  
Oh if I could only get some sleep  
You would be with me

Nothing lasts forever  
Every empire has a rise and a fall  
If we could live forever  
It wouldn't make no sense at all  
It wouldn't make no sense at all  
It wouldn't make no sense at all  
It wouldn't make no sense

Nothing lasts forever  
Like every empire will rise and will fall  
If we could live forever  
It wouldn't make no sense at all  
It wouldn't make no sense at all  
If we could live forever  
It wouldn't make no sense
