When the party's over
When the curtain falls
When the doors are closing
The writing's on the wall
Sing it loud
With love
And stay with me
When the party's over

When the world has hurt you
When your heart is bruised
When the road seems daunting
No matter which you choose
Walk it proud
With love
And stay with me
When the party's over

No long goodbye
No after show
The falling sky
Means it's time to go
My kingdom for one kiss
Everything I own
Love, all we have is love

When the party's over
When the day is through
When the walls are closing
No matter what you do
Sing it loud for love
And stay with me
When the party's over
Sing it loud for love
And lie with me
Come and die with me
When the party's over
When the party's over
