On my way to juvay, I bumped up this femme
As the music leggo gram we started to jam
So I hold she and I squeeze she, I was feeling quite
happy
But she started acting shy, she watch me and start to
cry

How you jammin?so, like you feeling hot or what
Mister why you crying so, you come out to jump on no
Every time you swing your hand, you bounce me total
on me butt
You behaving just like if you want to eat me right here
on the spot

To calm her I told her no listen miss femme
I simply come out to jam, I mean you no harm
She said no, no no no mister leggo
You must be from arruga or your name is jammada

How you jammin?so, like you feeling hot or what
Mister why you crying so, you come out to jump on no
Every time you swing your hand, you bounce me total
on me butt
You behaving just like if you want to eat me right here
on the spot

While moving that morning, the bands had to fight
Bottles flying left and right, a terrible sight
Like the crazy, lord have mercy, and with that she run
by me
But I had no sympathy, this is what I said to she

Hey how you jammin?so, like you feeling hot or what
Hm woman how you trembling so, you come out to
jump on no
Every time a bottle fell you bounce me total on me butt
You behaving just like if you want to eat me right here
on the spot
