Silence... Silence... Silence...  
Silence... Silence...

We've been watching you. We know you're with holding.  
Light's out. In a room. Can't tell what's unfolding. I won't  
explain a thing to you I'm sorry. So this charade will last  
until I'm dying.

How far will you go before you speak? Protect your  
silence, silence. And don't let a word slip in between.  
Resist their violence, violence.

I've locked away everything. That puts anyone in harms  
way. So make your move. Don't hesitate. I'll take this  
secret right to the grave. I won't explain a thing to you  
I'm sorry. So this charade will last until I'm dying.

How far will you go before you bleed? Protect your  
silence, silence. And don't let a word slip in between.  
Resist their violence, violence... Yeah!  
Silence... Silence...

How far will you go before you bleed? Protect your  
silence, silence. And don't let a word slip in between.  
Resist their violence, violence.
