As the days go by and we wonder why  
Everything changed before our eyes.  
On a bumpy ride that's just passing by  
As you are thinking of your life.

[Chorus:]  
How the times move on,  
How the times move on,  
Away from me.  
How the times move on,  
How the times move on,  
Away from me.

Memories I love, never will give up  
Because they just mean so much.  
On an unknown path that will lead me back  
To everything that I once said.

[Chorus:]  
How the times move on,  
How the times move on,  
Away from me.  
How the times move on,  
How the times move on,  
Away from me.

(Away from me)

[Chorus: (x2)]  
How the times move on,  
How the times move on,  
Away from me.  
How the times move on,  
How the times move on,  
Away from me.
