Let's take it back, take it back to where we started from  
And make it clear, make it clear enough so they know  
what we've become

Turn it up, turn it up real loud to make them stand up  
Build it up, build it up enough so they know what we  
have done

[Chorus]

And I'll think about all that you ever did  
And how you always said we will never make it  
But take a peak and look at where we have come  
And make a note that we won't change for anyone

Listen up, listen up and act like you know who we are  
Here's the thing, here's the thing about that you said  
we won't get far

Take a look, take a look right now at where we have  
been

Stop and think, stop and think about everything you  
once said

[Chorus]

And I'll think about all that you ever did  
And how you always said we will never make it  
But take a peak and look at where we have come  
And make a note that we won't change for anyone

Not for anyone! [x8]

[Chorus (x3)]

And I'll think about all that you ever did  
And how you always said we will never make it  
But take a peak and look at where we have come  
And make a note that we won't change for anyone
