You have seen me lie, you have seen me crucify my
love
I want it to die, I want it to kiss your ass goodbye
'Cos all I ever wanted, all I ever needed, was one hope
of respect
Everything I live for, I'm never gonna give you,
Is one hope of respect, from you

All my lies are good, I have scratched the surface of
your shit,
only ??, it could help my love ?? hold on
All I ever wanted, all I ever needed was one hope of
respect
Everything I live for, I'm never gonna give you,
Is one hope of respect, ...from you, ...from you

Love is not the same, is not the same from you

Love is not the same, is not the same from you

Not the same to me, not the same to everyone but me
Not the same with me, you're the same to every bitch
but me.

'Cos all I ever wanted, all I ever needed, was one hope
of respect
Everything I live for, I'm never gonna give you,
Is one hope of respect

All I ever wanted, all I ever needed was one hope of
respect
Everything I live for, I'm never gonna give you,
Is one hope of respect

One hope.....of respect [X4]
Is it on my love upon [X2]
