Though you're lost in me, you have to see
When things ain't right
Funny memories won't fill this need
When things ain't right

Safe mistakes I have made
Get burnt up inside my head
Fatal sees but never believes
The love that it saved wants death

Though you're lost in me, you have to see
When things ain't right
Funny memories won't fill this need
When things ain't right

Friends die hard but lovers conceive
The vibe that they hold will please
Smothered by sexual needs
The fade as the days go by

Some things don't go as you want them to
Good things, they don't always come to you
No, they don't always come to you, hey, yeah

Though you're lost in me
Though you're lost in me
Funny memories won't fill this need
When things ain't right

Though you're lost in me, no, no, no
You're lost in me
Funny memories won't fill this need
When things ain't right
