I'd see what you want to,
I'd see where you've been,
It's where I wanna be
Cold shoulder, black sweat now,
No fear in these deeds
It's what I wanna give
But my heart loves me still,
I succumb to it's will
Still I find you and you'll see wherever you go,
I'm always behind you
And you'll see me and believe, wherever you show,
I'm one face behind you, ever, ever, wherever you.....

That silver is whining, succeed to destroy,
Where I wanna hide
No liquid above me, cold hands that lie,
Where I'm gonna die

But my heart loves me still,
I succumb to it's will
Still I find you and you'll see wherever you go,

I'm always behind you
And you'll see me and believe, wherever you show,
I'm one face behind you, ever, ever, wherever you GO,
Wherever you go, wherever you go, wherever you go

But my heart loves me still,
I succumb to it's will
Still I find you and you'll see wherever you go,
I'm always behind you
And you'll see me and believe, wherever you show,
I'm one face behind you, and I'll find you and you'll
see,
Wherever you go I'm always behind you,
And you'll see me and believe wherever you show,
I'm one face behind you, ever, ever, ever, ever, ever,
ever
Wherever you go
