Give things gone cold
Still five years old
Drowning in justify now
You've broke the mold

Sucked into hover
Left out in hell
This crawler defies me
Survive by the smell

Who are you too say
You've no longer mine
This pill's too painful, higher
Swallow too hard, too hard

Brown sugar boy
She's tall in the neck
She's smiling so confident with him
Already dead

Who are you too say
You've no longer mine
This pill's too painful, higher
Swallow too hard, too hard

Swallow too hard (x4)

Who are you too say
You've no longer mine
This pill's too painful, higher
Swallow too hard, too hard

Swallow too hard
