Subscribe, to love, of your, big gut  
Fill it up, with food, you love it all  
Watch out, I'm here, I crowd, your sneer  
Reflects your face, you love it all

You want it all (you want it all)  
You want it all  
you want it all

No time for me, your life's in greed  
Your days, won't last, you gotta have it all

You smile, out loud, so crass, all heart  
Big mouth, small brain, you want it all

You want it all ( you want it all )  
You want it all  
You want it all

Ohh, They're coming to get you,  
They'll feed ya, they kill ya

You want it all ( you want it all )  
You want it all  
You want it all
