I feel apprehension and feeling it hard  
You got me in troubles, they're kicking my heart  
I followed the heat right into your bed  
Now everyone hates me, I might as well be dead

Tell me how, tell me how to breathe  
When your arms hold me too tightly  
You're too expensive for me  
I'd have to break all ties for you  
Tell me how to fall out of love with you

Your face is illegal, your talk is just class  
You kiss me with vengeance to sweet to unmask  
Still all of our issues won't smother in bed  
So our little devils run riot instead

Tell me how, tell me how to breathe  
When your arms hold me too tightly  
You're too expensive for me  
I'd have to break all ties for you  
Tell me how to fall out of love with you

Tell me how, tell me how  
Tell me how, tell me how to breathe  
When your arms hold me too tightly  
You're too expensive for me  
I'd have to break all ties for you  
Tell me how to fall out of love with you
