I'm leaving town gonna leave it all far behind
Lookin back never once crossed my mind
They say your bark's worse than your bite
I'll make it back in time for love tonight

Then you say that you don't want anyone new
No one new

I'm seeing things i ain't never seen before
Kinda stuff I can't seem to ignore
Half a town away don't seem that long
I'll make it back before you know i'm gone

Then you say that you don't want anyone new
No one new

(Chorus:)

I wouldn't have it any other way
Many nights as you cry
I wouldn't have it any other way
You know that i'm gonna stay around till the day i die
The day i die
The day I die

I'm leaving town gonna leave it all far behind
Lookin back never once crossed my mind
They say your bark's worse than your bite
I'll have to find out for myself tonight

Then you say that you don't want anyone new
No one new

(Chorus)
