"Face on Mars"

Visit "[Face on Mars](#)" on MotoLyrics.com

Bendin, curving, with the flow
wheels are turnin where i wanna go
Somethings working, cause it sets me free
Three ring circus everywhere i see

There's no end to what we can learn
Fly right through the sun, and not get burned
It's takin care of it's goin fine
Waitin for us all the time

Like a big top spinning on a crystal sea
I'm right in it, and it's inside me
Goes forever and it turns around
Comes back and your spinning upside down

Round and round and round it goes
Like a fountain that overflows
Through the web it sends a tune
Makes the trees dance in the moon -

(Chorus:)(2X)

Did you see, did you see, the face on Mars
Lookin out into space beyond the stars
Did you see, did you see, the face on Mars
We could be anyplace beyond the stars
