Leaning out the kitchen door, she perceived it as a star.  
And she stretched her pretty neck just to see what she  
could get.

Killed her with a poison comb, with a poison comb,  
poison comb.

Killed her with a poison comb, with a poison comb,  
poison comb.

When she saw the way it shone then she had to try it  
on.

When she saw the way it shone then she had to try it  
on.

Killed her with a poison comb, with a poison comb,  
poison comb.

Killed her with a poison comb, with a poison comb,  
poison comb.

Wash her face as fresh as cream, lay her out upon the  
bed.

If she stays completely still, put a crown upon her head.

Killed her with a poison comb, with a poison comb,  
poison comb.

Killed her with a poison comb, with a poison comb,  
poison comb.
