This is when shit gets real...  
Now, our minds have been betrayed  
Evil now has a face  
They will take all that we love, erase  
And when their begging for forgiveness  
Show no mercy  
Their lies are spreading like a sickness  
That we've created  
Consequences of the passing days, withstand  
punishment  
Shallow vows are fed through the serpents tongue  
Words like poison, indoctrinate the young.  
I wont stand for the plan they have for me  
Come my children, welcome to the machine  
Stand, up  
Step, down  
I wont stand by and watch this become something that  
were not  
The time has come now to fight this  
Stand strong and run to your guns  
The time has come now  
Run to your guns
