You will no longer need me
I'll be gone so far away
But you promise me just this once
Never will you forget this day

I won't be long, so please stay strong
It breaks my heart to go

You will no longer need me
I'll be gone so far away
But you promise me just this once
Never will you forget this day

I won't be long, so please stay strong
I'll be home before you know
I won't be long, so please stay strong
It breaks my heart to go

I'm counting the dreams we had
You're counting the days I'm gone
I'm counting the dreams we had
You're counting the days I'm gone

I won't be long, so please stay strong
I'll be home before you know
I won't be long, so please stay strong
It breaks my heart to go

I won't be long, so please stay strong
I'll be home before you know
I won't be long so please stay strong
It breaks my heart to go
