I hope I become a ghost.

I hope I can see the end of time.

I hope I become a ghost.

And make sure the future turns out fine

I hope I become a ghost.

Oh, when the world is said and done

The stars will become so close

And there will be nowhere that I can't run

Ooooh

Ahhhh, oh

I hope I become a ghost

And watch all my grandkids growing old

Some will remember me

And others through the stories they've been told

I don't intend to frighten you

Just want to see if what I think comes true

And then and only then we'll know

If it was worth to become a ghost

Ooooh

Ahhhh, oh

There's nothing sad about it

There's nothing sad about it
Now that I've become a ghost
I don't get to laugh with friends like you
It would not have been so bad,
If people like you would have become ghosts too

There's nothing sad about it.

There's nothing sad about it.

Ooooh

Ooooh

Ooooh

Ooooh

There's nothing sad about it.

There's nothing sad about it.

There's nothing sad about it.

There's nothing sad about it.
