I'm walking 'round got my eyes wide open
Still I see you everywhere
Day after day, I can say
There's times when I'm really starting to like it
{Going out is all about}
People that remind me
{Straight away somebody say}
It's just hallucinations
{I wonder why a lullaby}
Is playing all around me
I hope it isn't happening again
I'm asking you am I...

Chorus
Dreamin'
Everybody knows
Is something that I do while I'm wide awake and
missing you
Dreamin'
I've got to get you on the line
Or I'll be dreaming for the rest of my life

We used to talk
Make love in places
Was it up on number nine
I'm thinking damn
I am Not thinking
Maybe its for real this time
{Going out is all about}
People that remind me

{Straight away somebody say}
It's just hallucinations
{I wonder why a lullaby}
Is playing all around me
I hope it isn't happening again
I'm asking you am I...

Chorus
Dreamin'
Everybody knows
Is something that I do while I'm wide awake and

missing you
Dreamin'
I've got to get you on the line
Or I'll be dreaming for the rest of my life

Bridge
Did we fight
Or did I turn out the light and drift away?
Or maybe you were just not there
It isn't quite the same
So-I'll be making real love to you

Chorus
Dreamin'
Everybody knows
Is something that I do while I'm wide awake and
missing you
Dreamin'
I've got to get you on the line
Or I'll be dreaming for the rest of my life
