Flew in Friday night
Twelve hours, my head felt tired
Couldn't stop for too long
Between here and oz, I knew we'd gone
A long way from our home
Cultural shock was stinger strong
It didn't matter 'cause for me
Adventure is what I need and so did she
'Stasia said "let's get wild"
I want to see the town and maybe find a place to dance
and have a good time
'Cause Tony you see I've got needs if you please
How does it feel to be out here without a home
Y'all keep on moving 'til you find what you're searching

CHORUS

Friday night, I'm on the floor
I can't get enough but I want some more
I know we'll back another day
Dancing all night in Tokyo
Flash of light through the door
Just like a kid in a candy store
My favourite track, I have to stay
Dancing all night in Tokyo
As I thought, the venue was fine
The people were crazy, the people were high
You got to know about my friend called Alexis
He humped a ride here from Texas
State of mind, we all try
To do our best from time to time
So now we're here across the world
Still don't know where I belong
How does it feel to be out here without a home
Y'all keep on moving 'til you find what you're searching

CHORUS
