Sorry it has been so long since you received my last transmission,  
meanwhile I've studied them - learned about their strange condition.  
Now I think I understand why they live in such confusion,  
sadly they'll never change - I have come to this conclusion....

Planet Earth is great to visit - It's great to visit  
(but you wouldn't want to live there.)

I am the mariner who navigates seas celestial,  
astronaut ambassador sent to foreign shores terrestrial.  
Now with hindsight I admit I don't admire the humans' lot,  
frail bodies - fragile, ill equipped, their lives are hard  
(but they are not).

Planet Earth is great to visit - It's great to visit  
(but you wouldn't want to live there.)

And when you know the ways of men  
then you can only pity them,  
every day a raging storm -  
castaway in a carbon based life form.

I've wandered far (I've wondered hard) and have one source of comfort only -  
when I share my thoughts with you mortality is not so lonely.  
Countless starts between us - myriad the things I miss,  
I say farewell and think of home, the static drowns my parting kiss.

Planet Earth is great to visit - It's great to visit  
(but you wouldn't want to live there.)

And as your signal slowly wanes -  
the fears return (my growing pains),  
here it is for what it's worth -

yet another postcard from planet Earth.

Now with hindsight I admit I don't admire the humans'  
lot,  
frial bodies - ill equipped, their lives are hard (but they  
are not).

Planet Earth is great to visit - It's great to visit  
(but you wouldn't want to live there.)

And when you know the ways of men  
then you can only pity them,  
every day a raging storm -  
castaway in a carbon based life form.

Planet Earth is great to visit - It's great to visit  
(but you wouldn't want to live there.)
