Denine:
La la la da da da

You got awake to bring me the joy
I can't deny it
Never found true love before
It's time that I try it

Collage:
You make me feel I'm so alive
I feel in love for the first time

Denine:
I'm want you morning, noon, and night
Come on baby
Don't you put up a fight

Collage:
I wanna know
I'm yours,
I wanna know
You're mine

Denine:
Love of a lifetime

Collage:
I wanna know
I'm yours,
I wanna know
You're mine

Denine:
Love of a lifetime

Baby you should know
That you should be with me

Love of a lifetime

Together forever we will be

Love of a lifetime

I can't believe the way you make me feel
Beside me
And all I know is that it feels so real
When you're beside me

Collage:
You make me feel I will survive
I feel in love for the first time

Denine:
I want you to the morning light
Come on baby
Don't you put up a fight

Collage:
I wanna know
I'm yours,
I wanna know
You're mine

Denine:
Love of a lifetime

Collage:
I wanna know
I'm yours
I wanna know
You're mine

Denine:
Love of a lifetime

Baby you should know
You should be with me

Love of a lifetime

Together forever we will be

Love of a lifetime

La la la la da da da da
