Whooo, here we go, ya here we go!

Im just a girl trying to have fun, not much to do, just  
soaking up the sun.

Born to be creative, hands on and wild,  
Yet not being absorbitive.

So it's me against the world, and im doing great!  
SO not gonna stop to wait

Im on my own, and doing just fine, my whole world is  
looking so divine.

Being creative, doing my own stuff, just havin' fun,  
never in a rush!

So here i am having some fun, and still looking out for  
number one.

I like to loud, i don't blend in with the croud.

So pump it up, make it good. this is your change your  
feeling good.

Im on my own, and doing just fine, my whole world is  
looking so divine.

Being creative, doing my own stuff, just havin' fun,  
never in a rush!

So here i am having some fun, and still looking out for  
number one.
