Your're like a flower
Straight off the wall
A devilish call
Like heads going loose
To good to refuse
Like nothing at all
Your are standing straight, I'm pushing it hard
Show me just what a bad sign you are
The kind that we treat
Like fine dead meat
Is begging for more
Our heads got to roll
To lose the control
And be like before
You are standing straight, I'm pushing it hard
Come show me just what a bad sign you are

Come get me again
Don't do it like a friend
I'm on for devilment
Now do it like a fiend
You are standing straight, I'm pushing it hard
Come show me just what a bad sign you are

The kind that we treat
Like fine dead meat is begging for more
All heads got to roll
To lose the control
Or be like before (x2)
