"Everybody's Got To Go"

You came looking for something new
Something borrowed and something blue
The clouds are under your dancing feet
But here's what they told me
Call upon the landlord
Call upon the landlord
Now what is all we can't afford?
When everybody's got to go

Here's the beat
To beat the heart and soul
The beat to beat
The heart and soul
The beat to beat
The heart and soul
Everybody's got to go

Here's the beat
Here's the heart and soul
And the stories already told
I'm wide awake and half asleep
And here's what they told me
Call upon the landlord
Why don't you
Call upon the landlord
Now what is all we can't afford?
When everybody's got to go
