I'm on fire and coming over  
From the ditch were I'm going under  
Want a shot, want to meet the founder  
What a drag when the clouds are weeping  
What a drag when the clouds are weeping  
Don't know who or what I'm seeking

I'm on fire and coming over  
From the ditch were I'm going under  
Want a shot, wanna meet founder  
What a drag when the woods are calling  
What a drag when the woods are calling  
Not for them it's for you I'm crawling  
Not for them it's for you I'm crawling

And in the morning I wake up  
No wonders on my mind  
But million stories made up  
And thousand ways to find  
I'm coming over,  
I'm coming over, now
