

The Durango Riot

"Neighbours"

Visit "[Neighbours](#)" on MotoLyrics.com

We are neighbours all around here
A fall of fiction we're not playing dead
Windows cracked all around
And none of us would make a sound
See, I know you
And you know me

Cause we are
Neighbours you and me
As strange as it might seem
We are neighbours you and me

Trilogies don't make me happy
But looking back will hurt just even more
I will stay out with the pain tonight
And wear it like a golden crown
See, I know you
And you know me

Cause we are neighbours you and me
As strange as it might seem
We are neighbours you and me
And we are never to believe
A strangers company
We are neighbours you and me
