Are we realdogs, realdog?
See the proof on our stone
The radio burned me
Now take it or leave it
Say are we realdogs, realdog?
Dying to get nothing undone
I'll talk like a heathen before I believe it

It is understandable
Fucked and faithless animals for sure
Nothing new is radical
Just two faithless animals for sure

Are we realdogs, realdog?
Screaming on a broken-line phone
Now that you caught it
Just take it or leave it
Say are we realdogs, realdog?
Here down on the street were I go
I'll talk like a heathen
Before I believe it

It is understandable
Fucked and faithless animals for sure
Nothing new is radical
Just two faithless animals for sure

Animals
Animals
Animals
Animals
Fucked and faithless animals
For sure
