You know what Simon says
He tells you what to do
What if he told you to
Take off all your clothes
And dance in your birthday suit?

Sure, it's the latest craze
We all get influenced
The little secret
They don't want you to know, no, no

We're only human
Separated by our thoughts
So hang on to them
Or you'll find you might get caught

Caught up in the hype
Monkey see and monkey do
Mustn't get brainwashed
By what's surrounding you

Didn't you know that
Every little thing's contagious?
Oh yes
Every little thing's contagious

It's when you watch TV
In everything you see
The virus seeping through
And you start to want
What they tell you, you should want

It's in the air you breathe
It's hidden up their sleeves
They're even marketing
What I say right now, watch out

We're only human
Separated by our thoughts
So hang on to them
Or you'll find you might get caught

Caught up in the hype
Monkey see and monkey do
Mustn't get brainwashed
By what's surrounding you

Didn't you know that
Every little thing's contagious?
Oh yes
Every little thing's contagious

Na, nana, nana, nana
We're only human, separated
Na, nana, nana, nana
We're only human, separated
Only human, separated

Caught up in the hype
Monkey see and monkey do
Mustn't get brainwashed
By what's surrounding you

Didn't you know that
Every little thing's contagious?
Oh yes
Every little thing's contagious

Hype
Monkey see and monkey do
Mustn't get brainwashed
By what's surrounding you

Didn't you know that
Every little thing's contagious?
Oh yes
Every little thing's contagious
