Whooo, here we go, ya here we go!

Im just a girl trying to have fun, not mucb to do, just soaking up the sun.

Born to be creative, hands on and wild,
yet not being absorbitive.

So its me against the world, and im doing great!
SO not gonna stop to wait

Im on my own, and doing just fine, my whole world is looking so divine.

Being creative, doing my own stuff, just havin' fun,
never in a rush!

So here i am having some fun, and still looking out for number one.

I like to loud, i dont blend in with the croud.

So pump it up, make it good. this is your change your feeling good.

Im on my own, and doing just fine, my whole world is looking so divine.

Being creative, doing my own stuff, just havin' fun,
never in a rush!

So here i am having some fun, and still looking out for number one.
