It feels like I'm always hiding
But I don't know what it is that I'm fighting
I get so confused when I try to think
I used to understand everything

Could you be too dumb
To understand
How much it hurts when you do things like that?
(repeat)

It's not just you
It's everything else
And when it all comes together
All hell breaks loose
I don't know what's happening
But I can still blame it all on you

Could you be too dumb
To understand
How much it hurts when you do things like that?
(repeat)

Now I evaluate the things I think
And I feel like a psycho and my worst enemy
Have I gone crazy, have I lost control?
My life is like driving on an icy road

Could you be too dumb
To understand
How much it hurts when you do things like that?
(repeat)

Could you be too dumb
To understand
How much it hurts when you do things like that?
(repeat)
