When everything push to the merge
free quitting, be patient
when you are searching for a way out
frustrating deny it
not always so obvious
the true colours of shining free
eternate, throw a lance
shifting to black or white
prebate nebale
reveal the heir inside of you
like a close thin of
no parting importance
want to think you just might be allowed

beware, prepare
the road above lay in
we racing is not a car
the decision is all yours
its impossible to forget
want us be
put honor to rebuilt honor
misery supremacy

the time has come to choose your side
restricted limit time
the pact is divine in here
regain all self defense
asking for our all final solution
nicorette, nicorette
no matter all these things out
arrogance, disturbance
either way its so scar to heal

beware, prepare
the road above lay in
we racing is not a car
the decision is all yours
its impossible to forget
want us be
put honor to rebuilt honor
misery supremacy

Denied what
to explain for
deception
ressurrection
the damnation
must be broken,must be broken

curse be
accuracy
if theres might a way out
it will prospect
there will no will
it was the right
they tempt to them

They will existence
emptyness,loneliness
you wont just go out of the list
denial,withdrawal
the illusion with go much longer
no it wasnt enough
burn out
now your on your own
burn out

its impossible to forget
want us be
put honor to rebuilt honor
misery supremacy
now
its impossible to forget
want us be
put honor to rebuilt honor
misery supremacy
