"See You Again"

Visit "[See You Again](#)" on MotoLyrics.com

Climb a mountain and reach way up high
Paint a picture and let it fly
Try to hold on to something you love
Touch a hand, but you're touching a glove

Chorus:

Now you're with me and now you're not
Steam is rising - it's getting hot
For the summer's falling into the rain
And I just want to see you again
I just want to see you again

Someone's kneeling beside a stream
Hair of sunlight, a flaxen dream
Now I can tell you all that I see
But you're a world away from me

Chorus (three times)
